

# Aadhil Nandan

## Creative Developer & Designer

---

Thrissur, Kerala, India  
aadhilnandan.dev@gmail.com

## Profile

I'm a B.Tech Computer Science student at Jyothi Engineering College. I'm a "**vibe coder**" passionate about the entire creative spectrum — from Python development and AI to UI/UX design in Figma and 3D modeling in Blender.

## Key Skills

- UI/UX Design (Figma)
- React, JS & Tailwind CSS
- Python
- Prompt Engineering
- Video & Photo Editing

## Featured Projects

### AstroLens - NASA Space Apps 2025

#### Team Lead & Developer

Developed a full-stack application for the international NASA Space Apps Challenge, combining data visualization with a user-focused interface.

### Student Management System

#### Python Developer

Designed and built a complete desktop application from scratch using Python and the CustomTkinter library to manage student records.

### Project: Nova (AI Assistant)

#### AI & Python Developer

An ongoing R&D project to build a personal AI assistant, focusing on machine learning, API integration, and prompt engineering.

### Tic Tac Toe for Lovers

#### Pygame Developer

Created a custom version of the classic game using Python and Pygame, handling all game logic, custom graphics, and UI.
